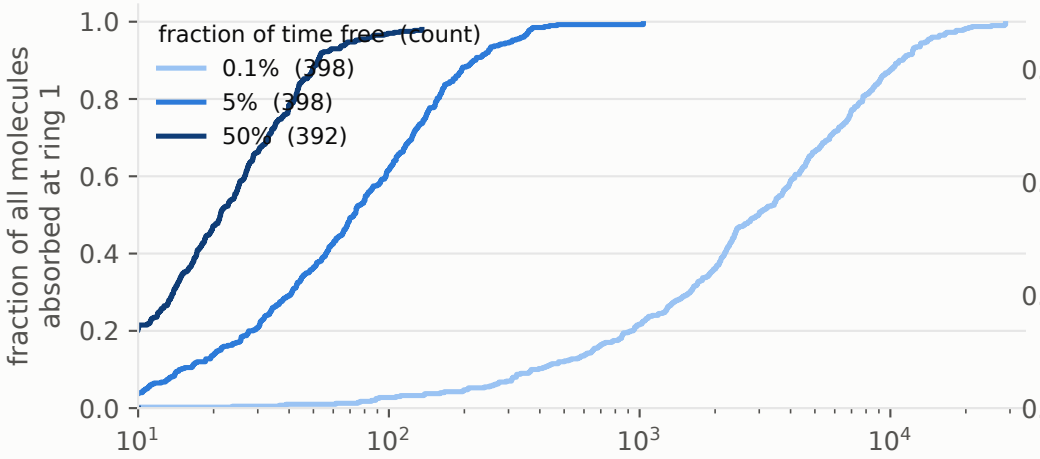
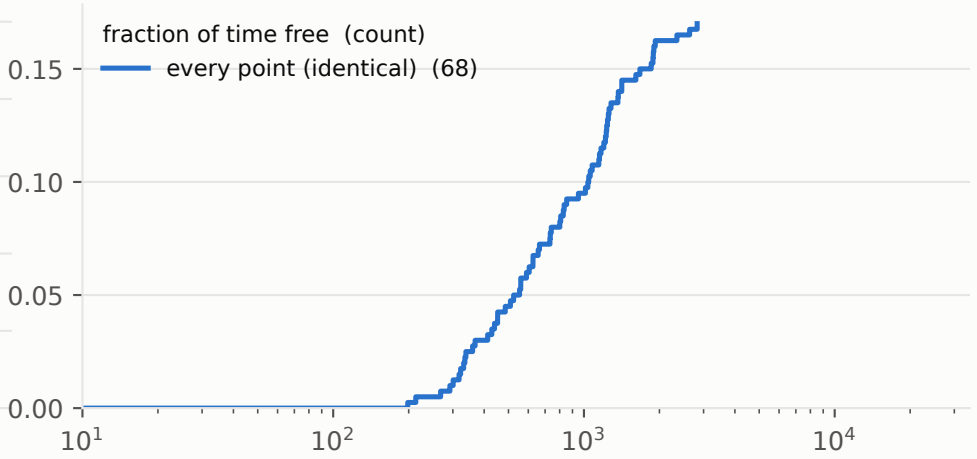
PILOT: receptors on every cell, 5 finds, 400 molecules

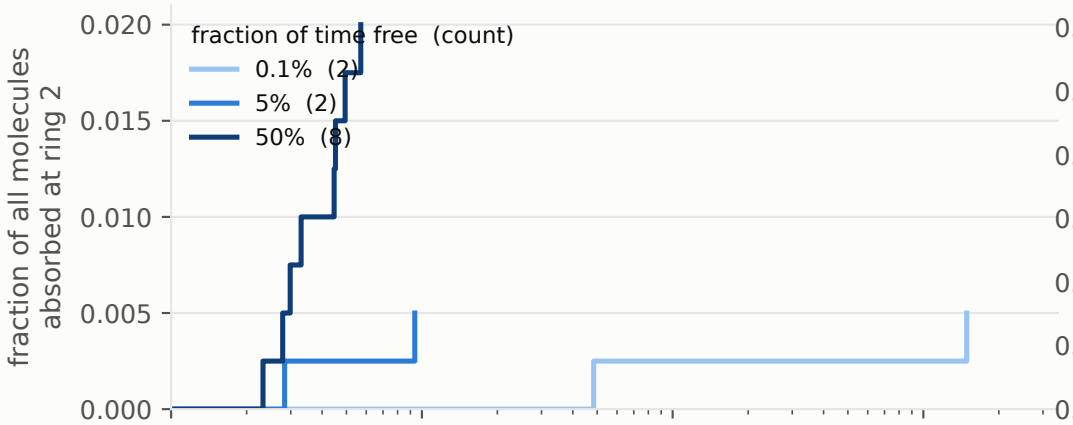
Switching: arrivals at ring 1



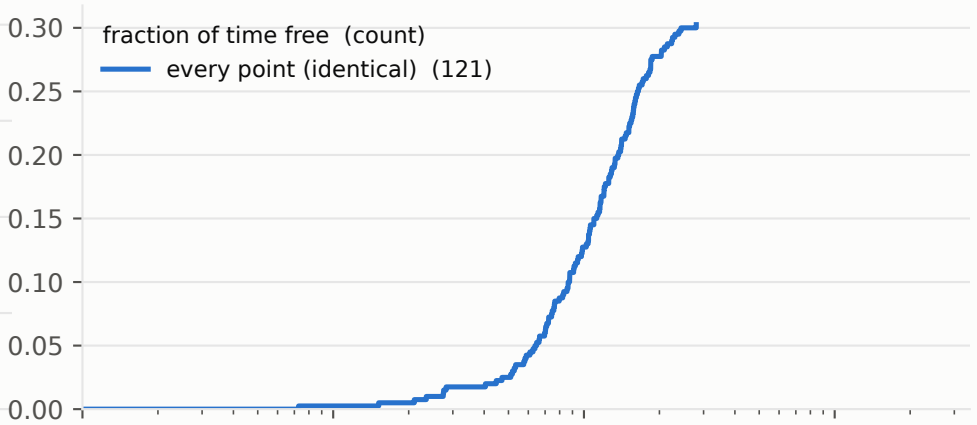
Non-switching (free-only, D = 0.5): arrivals at ring 1



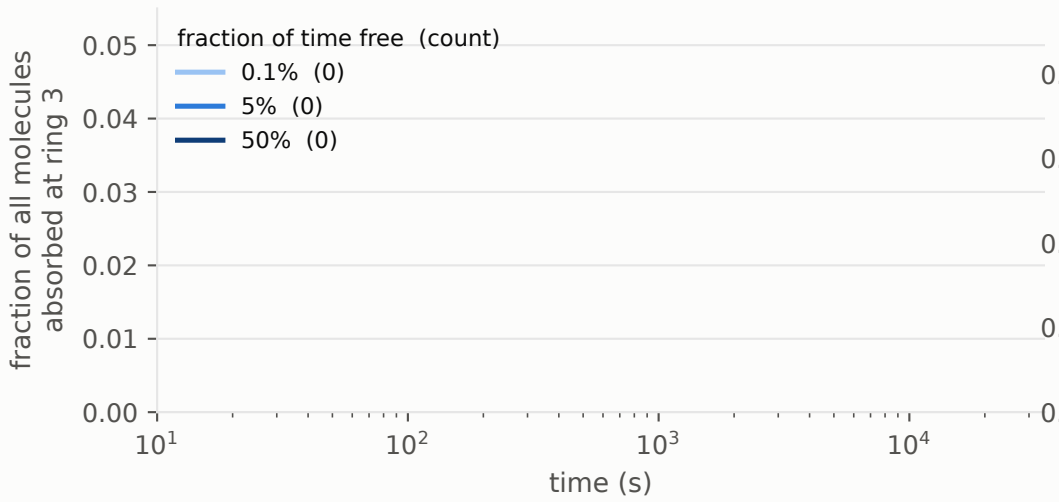
Switching: arrivals at ring 2



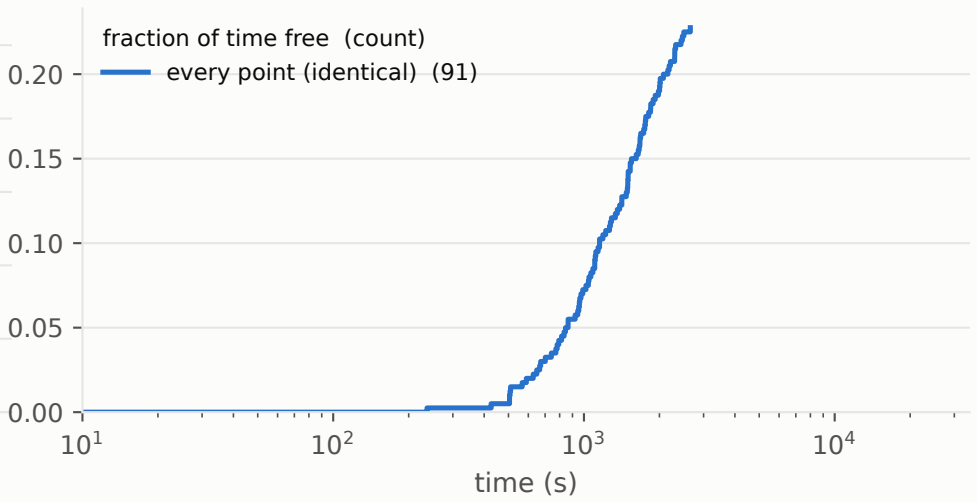
Non-switching (free-only, D = 0.5): arrivals at ring 2

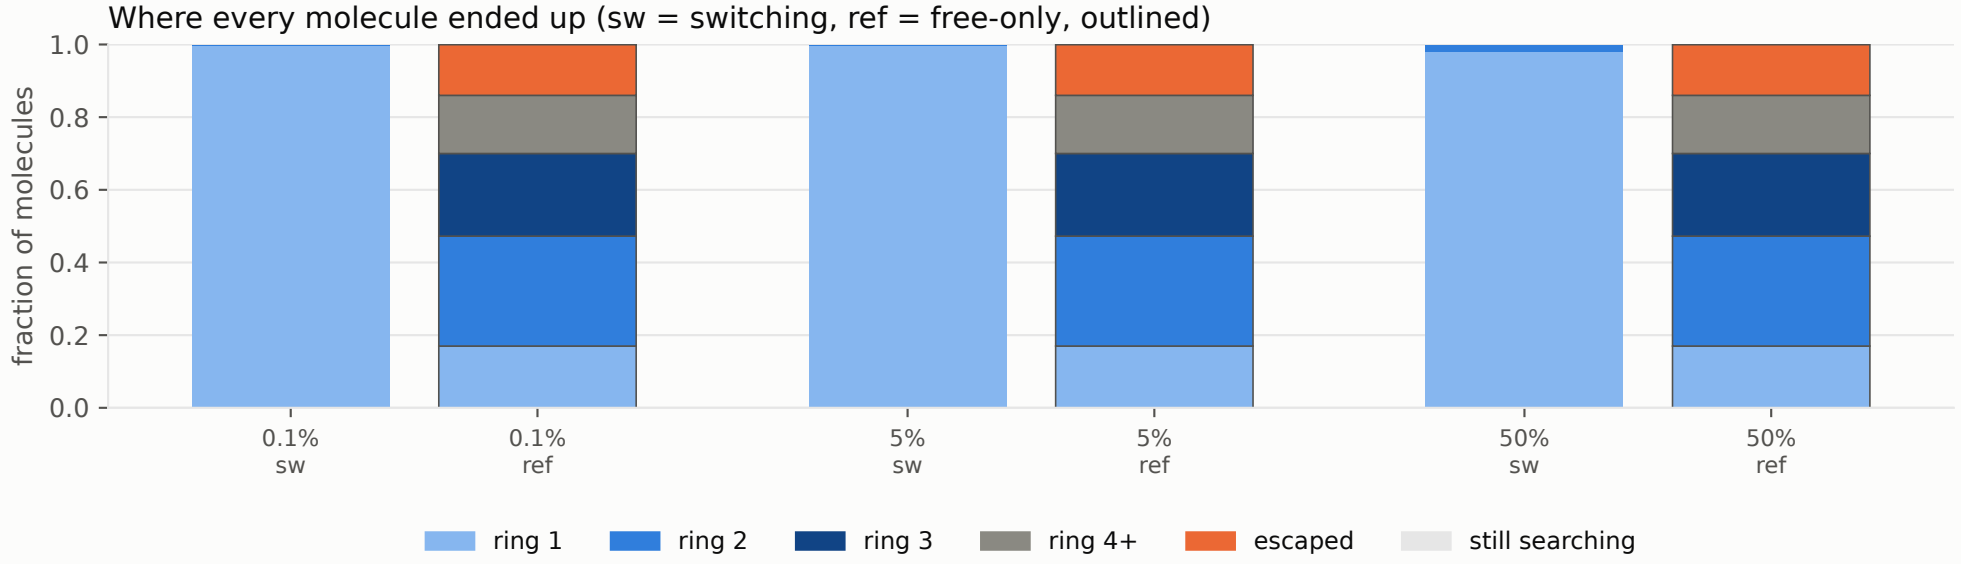


Switching: arrivals at ring 3



Non-switching (free-only, D = 0.5): arrivals at ring 3





Where every molecule ended up (sw = switching, ref = free-only, outlined)
